

HTML Homework

Basic Task:

Create a single HTML site including the following elements. Special attention needs to be paid to the file structure, indentation, structure and comments

Page 1

- `<header>...</header>`
- `<nav>...</nav>`
- `...` and / or `...`
- `<a>`
- `<main>...</main>`
- `<h1>...</h1>` to `<h6>...</h6>`
- `<footer>...</footer>`
- `<div>...</div>`
- ``
- `<p>...</p>`

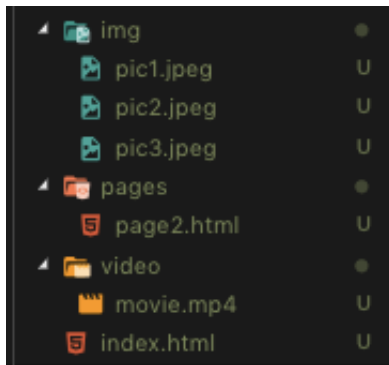

Extended Task:

Create the second page so it contains the following elements, and link the two pages together

- `<video>...</video>` or `<iframe>`
- `<table>...</table>`

Project organisation

A tidy project is essential for coding, and everything should be in its place. Feel free to add a new folder so long as the files within are relevant

The theme is up to you, but it could look something like:

index.html

- [Page 2](#)
- [Google](#)

Welcome to my first HTML page!

Lorem ipsum dolor sit amet consectetur, adipisicing elit. Veniam labore ullam hic doloremque est debitis temporibus tenetur nisi quibusdam nesciunt quo, eligendi quos error libero minus quod. Autem, sunt unde.
