

CSS Homework

Option 1:

Page 1

Style the first page of the HTML homework solution code from last week so it looks like the first image

Index.html

Page 2 Google

Welcome to my first HTML page!

Lorem ipsum dolor sit amet consectetur, adipisicing elit.
Veniam labore ullam hic doloremque est debitis
temporibus tenetur nisi quibusdam nesciunt quo,
eligendi quos error libero minus quod. Autem, sunt
unde.

Page 2

Style the second page of the HTML homework solution code from last week so it looks like the second image

`./pages/page2.html`

[Home](#) [Google](#)

Welcome to Page 2!

Lorem ipsum dolor sit amet consectetur adipisicing elit. Enim nemo dolor consequatur fugit voluptatem facilis saepe iure debitis distinctio cum libero atque laborum perferendis, officia quo quod eum, velit corrupti.

Language	Difficulty	Star rating
HTML	2	2
CSS	5	4
Javascript	7	5

Made with ♥ by Code First Girls © 2019

Option 2:

Style one page to look like a website you like the layout/appearance of. Feel free to recreate the cafe website you saw in the first few slides.

Notes

- When styling multiple pages from one stylesheet, pay special attention to the common elements / classes
- Folder structure, indentation and comments are critical. Everything should be in its right place
- Don't use CSS Frameworks like Bootstrap - we'll be getting to that later
